After going over the proposed site, examining the coal, sand, etc., they expressed themselves as very much pleased with the location, and with the superior quality of our sand, coal and limestone. The propositions submitted by the directors were very favorably received, and in all probability the factory will be located at this place.

TO BE A CARDINAL.

Archbishop Ireland's Assistant Practically Confirms the Rumor.

St. Paul, March 6.—Regarding a dispatch from Rome to the effect that Archbishop Ireland was being defended by the pope and would probably be made a cardinal in a few days, Father Hedron, of the archbishop's cathedral parish here, said:

"The dispatch from Rome states the situation truthfully, so far as I can learn."

"Was not the archbishop's visit to Rome prompted by some intelligence that he was to be made cardinal?" was asked.

"He may have had that intimation, but it was not known to us. In foreign countries bishops are required to visit the Vatican every five years, and in this country every ten or fifteen."

"Do you think that Archbishop Ireland will be made a cardinal during his present visit?"

"I do," replied, Father Hedron, frankly.

Glassworkers' Reception—Republican Preliminary—Personal and General.

About one hundred and twenty-five glassworkers, wearing the badge of Local Union No. 15, attended the reception tendered to them by the Y. M. C. A. at the association rooms on Saturday night. Others were also there and all spent a pleasant evening. The reception was the most successful in the history of the association. Mr. T. W. Shreve, the president, welcomed the glassworkers in a few well chosen remarks and James Carter responded in a happy manner. Miss Bess Thomas played on the organ, Messrs. Sam Carey and Oscar Hampton rendered a selection on their guitars, a quartette consisting of Messrs. Robert Kerr and Charles Hoyle and Misses Jessie Williamson and Anna Kallston sang several selections, Miss Mary McDonald gave two recitations, Mr. Charles S. Morrison spoke appropriately and explained the objects of the association. George Parker sang a solo and several association hymns were sung. The refreshments were served by Mrs. H. W. Smith, Mrs. J. S. Cochran, Mrs. Charles Morris, Mrs. Ed S. Houghton, Mrs. Benjamin Exley, Mrs. John Campbell, Mrs. Fannie Anderson, Mrs. Dr. J. M. Blackford, Misses Bee and Mary Thomas and Jennie Dixon. The glassworkers were glad they were there and the association was pleased to see so many of them. The "boys" are always welcome.

All Sorts of Local News and Gossip from the Glass City.

The Democrats were to have held primaries Saturday evening last to select delegates to their township convention, to be held at City hall next Saturday afternoon, but there was so little interest taken in the matter that only three wards made any pretense of primaries at all and they were not attended by fifty voters. The First and Third wards had no primaries, but in the Second, Fourth and Fifth the following were named by the few that gathered in each of them: Amos W. Shepherd, James Follen; Henry McCready, William A. Shepherd, George Lynskey, John Tallett, John R. McHenry, William Flaherty, John Wheelan, Henry T. Day, George Tallett, William McVay, Second ward; John Madden, John T. Flynn, John B. Watt, Jacob Schramm, Elmer Pratt, James Corcoran, George E. Morgan, E. E. Addison, Thomas Fay, Isaiah Davis, Fourth ward; Reuben Lowe, Joseph Boswell, Emmet McKean, William Ludwig and G. Schmidt, Fifth ward. Even the township precincts did not select delegates. The Democrats are neither hopeful nor energetic herabouts this season.

Prisoners in the Zanesville workhouse do duty in striped clothing. The rule was made so that if any of them escaped while at work he could be easily detected. OUR LIVER IN SPRING.

What People Ought to Know of It.

The liver which controls our liver often becomes weak, emaciated, irritated, diseased, especially in the Spring. The function of the liver is disturbed, and torpid or disordered action results. Hence the bile, which is waste and poisonous material designed to be expelled, is not properly secreted and eliminated from the body. Thus retained, it causes indigestion, dyspepsia, gas, bloating, biliousness, constipation, bad taste, malaria, headache, dizziness, dull head, nervousness, and, particularly during Spring, weak, languid and tired feeling. If not cured, this condition leads to fatal liver and kidney diseases. All persons need a medicine to stimulate and regulate the liver and strengthen their nerve force in the spring.

The Grip also, had a peculiarly weakening effect upon the nerves and liver and thousands who had this disease have never recovered their former health.

The best remedy and most certain cure for liver complaints and weak nerves is Dr. Greene's Nervura, which restores digestion, corrects the disordered liver, regulates the bowels, invigorates the blood and by strengthening and vitalizing the nerves, re-establishes health and strength. It is purely vegetable, harmless, and sold by druggists, \$1.

WHERE YOUR LIVER IS.

"I was taken sick with liver disease and ulceration of the bowels; my heart was also affected. I was finally confined to my bed three months. A consultation of physicians was held, and I was pronounced incurable. After that I stopped taking their remedies, and began the use of Dr. Greene's Nervura. Previous to this I could not sleep, my nerves were excitable and spasmodic, my stomach would not bear food, vomiting almost constantly. Soon after beginning Dr. Greene's Nervura I slept better, and my stomach would bear light food. I continued to gain until I could get out. I now work the greater portion of the time, and feel that Dr. Greene's Nervura saved my life."

JAMES MEEHAN,
57 Granite St., Quincy, Mass.

Call or write to him about your case or send for symptom blank to fill out, and a letter fulling explaining your disease, giving advice, &c., will be returned free.
